5. Questions?
1. What is this course all about?

Title: Data Structures and Programming
2. Course Resources

- Web Site

http://www.cs.sfu.ca/CourseCentral/225/alavergn/
2. Course Resources

- CMPT 225 mailing list
  - Broadcast -> email sent to our @sfu.ca account
  - Archived
  - Test: “Welcome to CMPT 225” email?
2. Course Resources

- i-clicker 1/2/+ 
  - Why?
    - Class active participation (for marks)
    - Great way to get feedback on learning
  
  - Practice: **Wednesday, May 10**
  
  - i-clicker Registration:
    - Important to register your i-clicker!
    - Where?
  
  - Can be used in many SFU courses
2. Course Resources

- **Software**
  - All programming assignments in C++
  - Labs use Linux command-line interface and g++
3. Activity

Goal:

• Take stock of our current OOP (classes) knowledge
• Warm up our programming skills
• Provide feedback to the instructor
3. Activity

Instructions:
- Form teams of 2 or 3
- Elect one person to come and pick up the 2 handout sheets (1 x yellow and 1 x green)
- We have 15 minutes to answer 10 questions on the handout
- At the end, please, submit both sheets of the handout (stapler available)
3. Activity

- Note that …
  - This activity will not be marked 😊
  - The handout will be available on the Course Web Site
4. Expectations

- Your expectations?

- My expectations:
  - Come prepared to lectures and participate
  - Do the labs and assignments
  - Keep an eye on your @sfu.ca email account
5. Questions?
