

# **CMPT 120 – Information about our Midterm**

# Midterm

When: March 8 – Lecture 23 –  
12:30pm to 1:20pm

Where: in B9201

Duration: 45 minutes

(5 minutes to organize ourselves)

# What to study?

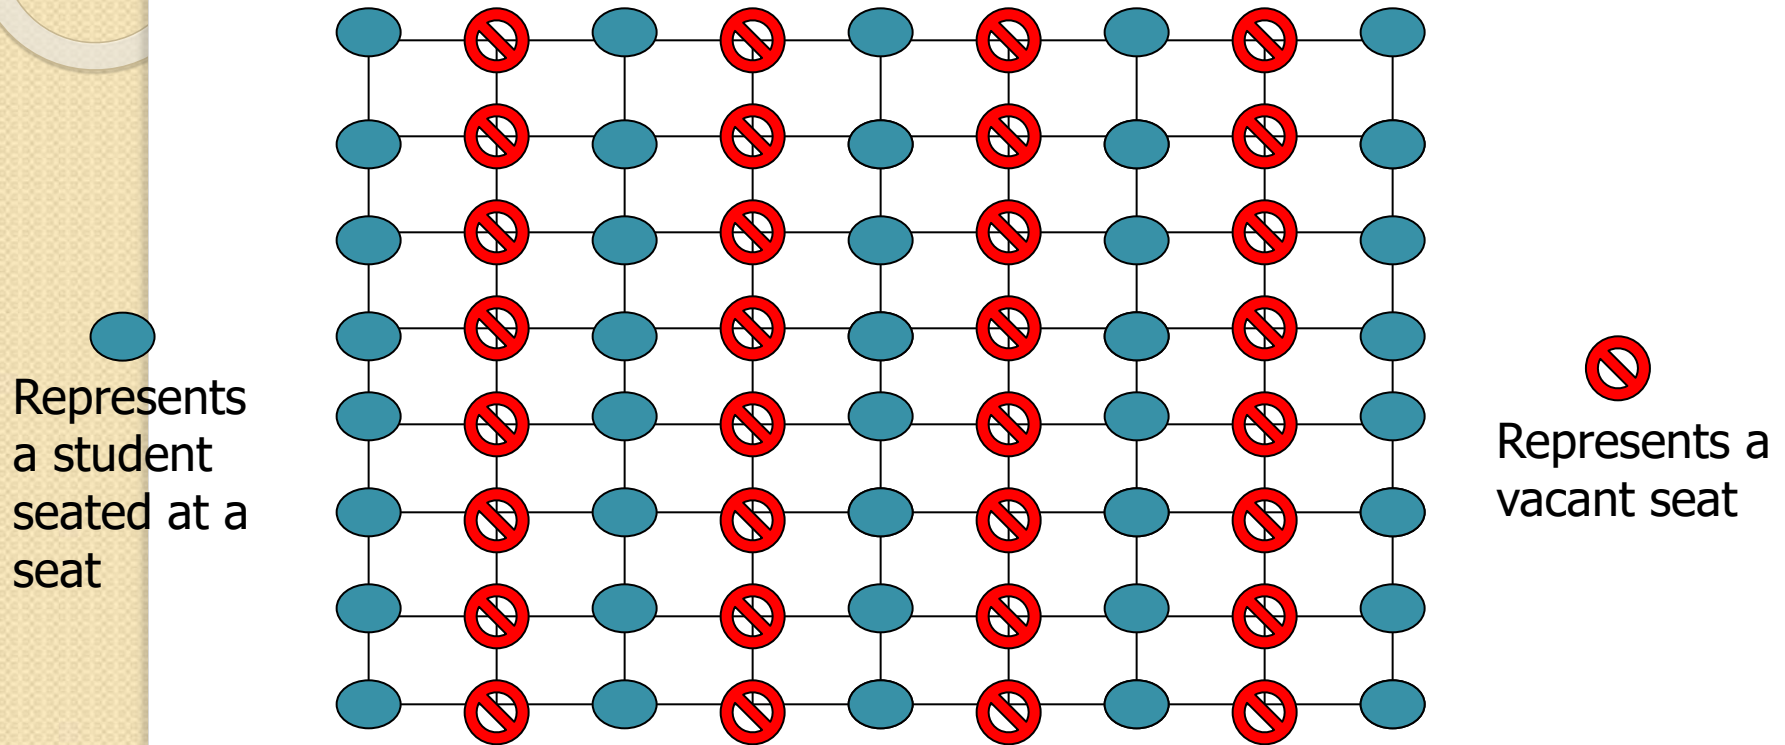

## Cut off is Wednesday March 6 (inclusively)

- So, everything we covered up until (and including) our lecture (PE #6) on Wednesday March 6
- This means:
  - All material from Lecture 1 until and including our Lecture 22
  - Partial lecture notes + your own lecture notes
  - Assignments 1, 2 and 3
  - Practice Exam #1 to #6
  - All code, examples and readings posted on our course web site up to and including Lecture 22
  - Good Programming Style (GPS)

# Format of Midterm

- **Part 1: Theory and Understanding**
  - Questions requiring short answers
  - For example:
    - Multiple choice questions
- **Part 2: Coding**
  - Questions requiring long answer
  - For example:
    - Writing an algorithm and/or code
    - Writing an answer (in English)
    - etc...

# Exam Seating Arrangement

Front of classroom

Put all your belongings (including cell phones, laptops, tablets, calculators) at the front of the room! – Please, turn OFF your phone!

Keep pens, pencils, eraser, student card and your **cheat sheet** with you!

# Before the Midterm starts

1. Once you have received your midterm, leave the midterm on your table
  - Please, do not touch, leaf through or write your name on the midterm yet
    - **Why?** Because it is **unfair** to all other students who have not yet received a midterm
2. Take this opportunity to read the **instructions on Page 1** of the midterm
3. When all students have received a midterm, you will be instructed to **start the midterm**

# During the Midterm

- I. Go over your midterm quickly looking for **printing errors** which look like this:

```
? ??? ? ??? ?? r???r? ???? ? ???? ??????d ?? ?r target machine ? ???  
myParameter ???? ?? ????-32768?
```

- |           |                      |
|-----------|----------------------|
| a. 32767  | d. 32768             |
| b. -32768 | e. None of the above |
| c. -32767 |                      |

Look for any characters that cannot be read and understood!

If you find these printing errors in your midterm, alert the instructor right away and you will be given another midterm

- Continue answering the midterm using the new midterm
- Write your name and student number on both midterms
- Hand both in at the end

# During the Midterm

1. You can unstaple your midterm
2. Please, do not write on the QR code at the top of each page of the midterm
3. In Part I of the midterm, do not forget to write your answers on the **bubble sheet** at the back of this examination paper
4. **There are no questions allowed during the midterm**
  - Instead, write down your assumptions when answering questions. If your assumptions do not “break” the requirements of the question, they will be considered when marking.

# When time is up ...

- I. You will be instructed to **stop writing!**
  - Please, **do** stop writing
    - **Why?** Because, if you continue writing, it is **unfair** to all other students who have stopped writing
    - If you continue writing, this will be considered an act of *Academic Dishonesty* -> 0 marks

# Collecting Midterms

1. Stay seated in silence
2. Put your cheat sheet on top of your midterm
3. Pass your cheat sheet and midterm down the row towards the aisle – we will be collecting them
4. Once we have collected all midterms (and cheat sheets), you will be told that you can now collect your bags and leave the classroom

# Questions?

- **Good luck in your study!**
