CS Peer Tutoring Sessions – Guidelines!

➤ Room capacity: No more than 6 students at a time in the room
  ➤ Once you have been helped, allow another student to come in by leaving the room – you can always come back.

➤ Come prepared: Have your code ready to show on your computer

➤ Be ready to think: CS Peer Tutors will not give you the answer, they are there to help you understand CS concepts, not to do your homework!
  ➤ Also, CS Peer Tutors do not fix problems related to the CSIL computers – email Helpdesk (helpdesk@cs.sfu.ca) instead.

➤ Be respectful: CS Peer Tutors are generously giving their time – let’s be grateful! 😊
