C Functions

- Get in the habit of checking the return value of C functions such as `scanf(...)`
  - For example, what does it mean when `scanf(...)` returns a number that is ...
    - > 0
    - 0
    - < 0
A Few Helpful Tips

- Reading ALL Tasks’ Requirements 1st
  - Task 5 and Task 7 - Input and output interleaved on the monitor screen
  - Task 6 – Trick when initializing variables $\text{max}$ and $\text{min}$
  - Read Task 9’s Guide carefully
