Weekly Exercise 4

- In this Weekly Exercise 4, you are asked to submit your program `scrambled.c` you wrote for Task 4 of Lab 2.
- Submit your program on CourSys by 3pm on Thursday Feb. 13.
- Hum... you may think:
  - Why do I have to submit a program as a Weekly Exercise (for 2%) when this program has already been graded by the Lab 2 grading robot?
  - The answer is that there are two requirements from the list of Task 4 requirements in Lab 2 that the grading robot cannot test. Can you guess which requirements are these?
  - These are the two requirements we shall grade as part of this Weekly Exercise 4!
