Weekly Exercise 8

- In the Weekly Exercise 8’s textfield on CourSys, copy and paste the whole content of your functions

  ```c
  intarr_t* intarr_create( unsigned int len ){...}
  ```

  and

  ```c
  void intarr_destroy( intarr_t* ia ){...}
  ```

  you have implemented, compiled and tested for Task 1 of Lab 5

- Make sure you include
  - The function headers
    - This is a function header: `void intarr_destroy( intarr_t* ia )`
  - The implementation of both functions, i.e., the code you put between the `{ }`

- Due Thursday March 19 at 3pm on CourSys
