

# CMPT 354 –Database Systems I (Section D100)

---

## Assignment #1

Instructor: Richard Frank (rfrank@sfu.ca)

TA:

Total Marks: 50 (5% of the Individual Assignments)

Due Date: Sept 16, 14:30

- 1) Find 5 medium-large size applications or websites in 5 different domains, and hypothesize on how they do/could use databases. For each, briefly discuss why they do/should use databases (2 marks), what information you think they (should) store information about (5 marks) and how their business would change if database technologies did not exist (2 marks). Back up your points using references from reliable sources (1 mark). Submission should be approximately 3 pages.
