E-mail: @sfu.ca

October 3, 2000

To whom it may concern:

I hereby acknowledge that I have been working on the CMPT-459 course project on data mining and

- ☐ I have been given a special permission to access the NASA ASRS data. I understand that the data as well as any analysis result based on the data is confidential.

Here I claim that I have no right to distribute or disclose the data (including any part of the data) or any result of my project to anybody else without the written permission from Simon Fraser University or from Dr. Jiawei Han. I should destroy every copy of data I made on December 11, 2000. I am legally responsible for any violation of this agreement at my side.

- ☐ FP-growth executable code. I understand that the FP-growth is copyrighted by Simon Fraser University and DBMiner Technology Inc. and the technical information related to the algorithm is confidential.

Here I claim that I have no right to distribute or disclose the code (including any part of code) to anybody else without the written permission from Simon Fraser University or from Dr. Jiawei Han. I am legally responsible for any violation of this agreement at my side.

Also, I hereby acknowledge that I make no claim as regards the invention or subsequent development of FP-growth, invented by Dr. Jiawei Han and his colleagues in Simon Fraser University and/or DBMiner Technology.

- ☐ I have been given a special permission to access the CLOSET executable code. I understand that the CLOSET is copyrighted by Simon Fraser University and DBMiner Technology Inc. and the technical information related to the algorithm is confidential.

Here I claim that I have no right to distribute or disclose the code (including any part of code) to anybody else without the written permission from Simon Fraser University or from Dr. Jiawei Han. I am legally responsible for any violation of this agreement at my side.

Also, I hereby acknowledge that I make no claim as regards the invention or subsequent development of CLOSET, invented by Dr. Jiawei Han and his colleagues in Simon Fraser University and/or DBMiner Technology.
